CAREER OBJECTIVE

Motivated second-year Computer Science Engineering student with hands-on experience in software support, embedded systems, and web technologies. Seeking a Front-End Developer internship to apply skills in HTML, CSS, JavaScript, and Python to build responsive, user-friendly web applications and contribute to impactful real-world projects.

EDUCATION

Bachelor of Engineering in Computer Science & Engineering 2023 – 2027 (Pursuing)
Dr D Y Patil Technical Campus, Savitribai Phule Pune University
Aggregate CGPA: 7.37 / 10.0 (Ongoing)

Senior Secondary (XII) — Science 2023
A.J.M.V.P.S. New Arts, Commerce And Science College, Ahilyanagar — Maharashtra State Board

Secondary (X) | Percentage: 91.40% 2021
M.E.S. Renavikar Madhyamik Vidyalay, Ahilyanagar — Maharashtra State Board

TECHNICAL SKILLS

Programming Languages: Python, C, C#, Arduino
Web Development: HTML, DHTML, CSS, JavaScript
Libraries & Tools: Pandas, NumPy, Git, VS Code, Arduino IDE
Domains: Front-End Development, Data Analytics, Embedded Systems, GenAI

PROJECTS

Traffic Light Simulation using Arduino May 2024
Embedded Systems Project — Infosys Springboard

- Built a 3-phase traffic light control system using embedded logic to simulate real-world signal operations
- Gained hands-on experience with hardware-software integration and timing control using the Centrado Kit

Technologies: Arduino, Embedded C, Centrado Kit

Voice Assistant (Personal Project Manager) Dec 2025

- Built a voice-controlled automation system handling 10+ commands including app launching, web search, and time queries
- Implemented real-time speech-to-text recognition mapped to executable Python functions for seamless user interaction
- Integrated Wikipedia API and Google Search for dynamic query responses via natural language voice input

Technologies: Python, speech_recognition, pyttsx3, datetime, Wikipedia API

EXPERIENCE

Software Support & Industrial Automation Intern (Academic) Jan 2025 – Apr 2025
LAMCO TRANSFORMERS PVT. LTD., Pune

- Provided software and technical support for internal systems across a transformer manufacturing environment
- Resolved system troubleshooting, software configuration, and IT issues; streamlined digital workflows for engineering teams
- Worked on PLC programming for industrial applications; contributed to data handling and technical report writing
- Developed professional skills in teamwork, time management, and cross-functional collaboration

CERTIFICATIONS & TRAINING

Cybersecurity Analyst Job Simulation — Forage, Jul 2025 | IAM, security strategy, platform integration
GenAI Powered Data Analytics Job Simulation — Forage, Jul 2025 | EDA, AI risk profiling, predictive analytics
Software Engineering Job Simulation — Forage (Accenture), Jul 2025 | Architecture, testing, agile
DHTML Training — Infosys Springboard, Apr 2025 | Dynamic HTML for interactive web pages
Python For Data Science (PY0101EN) — IBM Cognitive Class, Apr 2025 | Data handling & analysis
Other Courses — Python Using AI Workshop (AI For Techies), Green Skills & AI (Edunet Foundation), Python for Beginners (Udemy)

ADDITIONAL INFORMATION

Strengths: Quick learner, Problem-solving, Team collaboration, Self-motivated, Adaptability
Sports: Cricket
Languages Known: English, Hindi, Marathi
Interests: Front-End Development, Cybersecurity, Data Analytics, Emerging Technologies, Workshops & Webinars
